## Child and Young Person's Advance Care Plan Collaborative

# Child and Young Person's Advance Care Plan

This document is a tool for discussing and communicating the wishes of a child, young person, parent(s) and/or their family. The plan is also designed to record the wishes of families for their baby (neonate or infant).

In addition to recording a concise record of the advance plans it is designed to provide a rapid overview, of key decisions, to the attending carers, should an emergency situation arise when the individual cannot give informed consent for themselves and / or next of kin / parent(s) cannot be contacted.

It is a collaborative document with representation including the South Central and Wessex, West Midlands, North West, Kent and the South West for shared decision making between families and clinicians.

# Child & Young Person's Advance Care Plan (CYPACP)

## Specific Treatment Plans

(Prompt: allergies recorded on Front Cover)

Management of seizures <i>(Please select one option only)</i>	Date of Weight	Weight (Kg)
<input type="radio"/> Manage using APLS guidelines		
<input type="radio"/> Requires a personalised seizure plan below		

**Personalised Seizure plan:** (drug name, dose and route) please add patient weight used to calculate drug doses

First Line		after	mins
Second Line		after further	mins
Third Line		after further	mins

Call **999** for emergency transfer to hospital?  Yes  No

If yes, at what stage

Description of usual seizure pattern/ types

Other instructions for seizures

### Management of infection

This section is for community use and may involve instructions to transfer to hospital.

Contact specialist team and microbiology

Please record if likely to be neutropaenic or have an immune deficiency

Preferred antibiotic or regime for recurrent infections – drug dose, route, duration:

### Instructions for other specific circumstances

Name	Signature	Professional Role	Date

Name:			
DOB:			
Hospital No.		NHS No.	

## Management of a Life Threatening Event

Prompt: allergies recorded on Front Cover

### Symptoms and signs to expect (NB Information about diagnosis is on p6)

In the event of a likely *reversible* cause for acute life-threatening deterioration such as **choking, tracheostomy blockage or anaphylaxis please intervene and treat actively**. Please also treat the following possible problems actively e.g. bleeding (**please state**):

A life threatening event may lead to a cardiac or respiratory arrest (cardiorespiratory arrest). If p15 has not been completed, decisions about resuscitation would normally be made on a 'best interests' basis. The presumption would normally be for attempted resuscitation initially unless this seemed futile, unlikely to be successful, not in best interests, or otherwise directed.

### In the event of life threatening event (Add comments to clarify wishes)

- |                                     |  |  |
|-------------------------------------|--|--|
| <input checked="" type="checkbox"/> | Support transfer to preferred place of care if possible                              |  |
| <input checked="" type="checkbox"/> | Maintain comfort and symptom management, and support child / young person and family |  |
| <input checked="" type="checkbox"/> | Clear upper airway / mouthcare   |  |

- |  |   |
|--|---|
| <input type="radio"/> Yes <input type="radio"/> No | Facemask oxygen if available.                             |
| <input type="radio"/> Yes <input type="radio"/> No | Bag and mask ventilation.                                 |
| <input type="radio"/> Yes <input type="radio"/> No | Emergency transfer to hospital if considered appropriate. |
| <input type="radio"/> Yes <input type="radio"/> No | Intravenous access or Intraosseous access.                |
| <input type="radio"/> Yes <input type="radio"/> No | Non-invasive ventilation.                                 |
| <input type="radio"/> Yes <input type="radio"/> No | Intubation.   |

### Comments about feeds and fluids

**Other (please state):** (e.g. may include specific information if a life threatening emergency happens at school)

### Clinicians have a duty to act in a patient's best interests at all times.

If a parent or legal guardian is present at the time of their child's collapse, they may wish to deviate from the previously agreed plan and under these circumstances their wishes should be respected, provided they are thought to be in the best interests of the child/ young person. The child/young person or parents /guardian can change their mind about any of the preferences on the care plan at any time.
