Child and Young Person's Advance Care Plan

This document is a tool for discussing and communicating the wishes of a child, young person, parent(s) and/or their family. The plan is also designed to record the wishes of families for their baby (neonate or infant).

In addition to recording a concise record of the advance plans it is designed to provide a rapid overview, of key decisions, to the attending carers, should an emergency situation arise when the individual cannot give informed consent for themselves and / or next of kin / parent(s) cannot be contacted.

It is a collaborative document with representation including the South Central and Wessex, West Midlands, North West, Kent and the South West for shared decision making between families and clinicians.

Name	Signature	Professional Role	Date

Management of a Life Threatening Event

Prompt: allergies recorded on Front Cover

Symptoms and signs to expect (NB Information about diagnosis is on p6)

--

In the event of a likely *reversible* cause for acute life-threatening deterioration such as **choking, tracheostomy blockage or anaphylaxis please intervene and treat actively**. Please also treat the following possible problems actively e.g. bleeding (**please state**):

--

A life threatening event may lead to a cardiac or respiratory arrest (cardiorespiratory arrest). If p15 has not been completed, decisions about resuscitation would normally be made on a 'best interests' basis. The presumption would normally be for attempted resuscitation initially unless this seemed futile, unlikely to be successful, not in best interests, or otherwise directed.

In the event of life threatening event (Add comments to clarify wishes)

<input checked="" type="checkbox"/>	Support transfer to preferred place of care if possible	
<input checked="" type="checkbox"/>	Maintain comfort and symptom management, and support child / young person and family	
<input checked="" type="checkbox"/>	Clear upper airway / mouthcare	

<input type="radio"/> Yes <input type="radio"/> No	Facemask oxygen if available.
<input type="radio"/> Yes <input type="radio"/> No	Bag and mask ventilation.
<input type="radio"/> Yes <input type="radio"/> No	Emergency transfer to hospital if considered appropriate.
<input type="radio"/> Yes <input type="radio"/> No	Intravenous access or Intraosseous access.
<input type="radio"/> Yes <input type="radio"/> No	Non-invasive ventilation.
<input type="radio"/> Yes <input type="radio"/> No	Intubation.

Comments about feeds and fluids

--

Other (please state): (e.g. may include specific information if a life threatening emergency happens at school)

Clinicians have a duty to act in a patient's best interests at all times.

If a parent or legal guardian is present at the time of their child's collapse, they may wish to deviate from the previously agreed plan and under these circumstances their wishes should be respected, provided they are thought to be in the best interests of the child/ young person. The child/young person or parents /guardian can change their mind about any of the preferences on the care plan at any time.
